Sandboxie Download Occupies 5The current setup file available for download occupies 5.. In case you do like it, just install it again outside the sandbox Use sandboxie to intercept your browser's disc activity, throw away the sandbox and all your recent activity disappears, including cache, history etc.. Content will be published on site after you have activated your account On another topic, this is why I refuse to use a 64 bit operating system.. 9 MB on disk The programs run normally and at full speed, but can't make any permanent changes to your computer; the changes are effected only in the sandbox.. If the software contains malware or you just don't like it, just throw away the sandbox and the program disappears completely.
